The School & Courses

The School

Our main school for adults, which is based in Muckross, is a friendly, peaceful and comfortable place to study as it is more like a home than a school. We understand that many parents don't wish to be taught in an environment that reminds them of their teenage years. They would prefer to have more individual attention and to learn in a more relaxed environment. That is why class sizes are small, between 1 and 6 students from September to June and between 6 and 10 students from July to August. The maximum number of students in any adult class is 10. The maximum capacity of the adult schools is 40.

Because of the small class sizes, teachers are able to give greater attention to individual students and to find material which is much better suited to the class as a whole.

Perhaps you are interested in studying in the afternoons. In that case, there is a borrowing library, self-study area at the top of the school. This has internet access and wifi for those who wish to bring their own laptops. We also have a free bike lending facility at the school if you decide you would prefer to explore the national park instead or transportation into town if you'd like to wander around Killarney, enjoying the sights.

The Courses

Killarney School of English can offer you a choice of three different full-time courses.

GE1: 15 hours of General English per week in a group

GE2: 30 hours of General English per week in a group

GE3: 15 hours of General English in a group + 15 hours afternoon activities per week (Easter and Summer only)

GE3A: 15 hours of General English per week in a group and 1 hour of 1-2-1 private tuition per afternoon.

ONE-TO-ONE COURSES (PRIVATE TUITION)

If you feel you have more specific needs that cannot be accommodated in a group class it is possible to take a one-to-one course in the afternoons only. You can decide in advance how many classes you wish to take and tell us what you wish to be taught in that time. It can simply be General English, if you wish or something more specialised such as pronunciation practice, business, medical or legal English.

END OF COURSE

At the end of your course you will receive a certificate stating your level, topics covered and attendance dates.

The Staff & Testing

The Staff

All our staff are highly-trained and fully-qualified to teach English as a Foreign Language. They are extremely motivated, supportive of students and sensitive to their cultural and pedagogical needs. Most have experience in teaching EFL either in Ireland or abroad and continue to train by taking part in workshops or training courses in institutions throughout Ireland. The school's two directors, Nicola and Feargal, are both qualified TEFL teachers, with Masters degrees in TESOL and 35 years of teaching experience between them.

Our secretary, is also a qualified teacher with 10 years of teaching experience both in Ireland and abroad, which means she can help not only with any administrative queries but also with any teaching-related issues. Our activity coordinator, is also a qualified teacher who teaches with us in the mornings.

Testing & Levels

Once you have applied to the school you will be asked to complete a placement test which will be used to assess your current level of English and will allow us to place you in the appropriate class for your stay. This assessment is based on your performance in the three main skill areas of writing, vocabulary and grammatical awareness.

In the summer we are able to offer you 6 different levels of English Language tuition from Beginner to Advanced.

Course Curriculum

At the school we understand that the main objective for the majority of students who come to us during the summer is to improve their speaking and listening skills. Having spent most of their teenage years and beyond, learning the rules of grammar, they realise that they still have little confidence when it comes to the spoken language. That is why our curriculum follows a communicative approach, communication being the end goal for all language learning. The methodology then emphasises the use of role-play, situational dialogues, discussion and games to increase confidence and improve fluency.

However, reading, writing skills and grammar are also incorporated because all of them are to some extent necessary in supporting the act of communication; the reading helps to develop a solid vocabulary base, the writing to consolidate what has been learnt previously and the grammar to improve accuracy.

Killarney School of English Accommodation

Host Family Accommodation

Your comfort and welfare outside of class hours is a very high priority to us and that is why we have taken great care in choosing a host family for you. Living in a host family is very different from staying in a B&B or hotel. You are a guest but at the same time treated as members of the family and so you should not expect special treatment. You are encouraged to spend time with the family but must also appreciate that there will be occasions when the family need time on their own.

The Room

All students have single rooms unless otherwise requested. The bedroom should include a desk/table for study, adequate storage for clothes and a comfortable bed with fresh bed linen provided at least once a week.

A bathroom should be available to you everyday. Please check with the family as to the best time to use the bathroom, particularly in the mornings.

You are expected to keep your room tidy and to make your bed everyday. You could also help your family with small jobs such as clearing the table after the meal, etc.

Meals

Most host families may eat their evening meal earlier than would be customary in your own country. Usual eating times are 5:30pm-7:30pm. A lot depends on how late your family works. In many cases work finishes between 5pm and 6pm but in some cases it can be later. Occasionally there are people who do shift work at night.

Laundry

Your laundry will be included with the family's and / or you will have access to laundry facilities.

Telephone

You should not use the host family's telephone and / or internet without permission. If you are allowed to make an outgoing call you must reverse the charges. You can, of course, receive phone calls from your family or friends.
